Letter of Invitation

8th May 2018

Dear Dr Qi Peng

We are pleased to invite you to participate in the 2018 International Congress of Invertebrate Pathology and Microbial Control and the 51st Annual Meeting of the Society for Invertebrate Pathology, which will be held from the August 12th to 16th at the QT, Gold Coast, Australia.

This meeting is the world's foremost annual meeting on invertebrate pathology and microbial pest control and is particularly important as a networking event for the development of national and international collaborations across research and industry. Full details of the meeting can be found at www.sip2018.com

We especially welcome and look forward to your oral presentation "Transcription of the cellobiose transport pathway is controlled by Sigma 54 and regulated by CelR in *Bacillus thuringiensis*".

This invitation is issued for the purposes of assisting you with obtaining funding and visa entry for participation at the conference. No financial contribution or obligation on the part of the conference organizers is implied or should be inferred.

We look forward to welcoming you to Australia in August 2018.

Sincerely yours

Prof. Johannes Jehle
President of SIP

A/Prof. Caroline Hauxwell
Chair, Local Organizing Committee
