

THE JOINT WEED SCIENCE SOCIETY CONGRESS

9th International Weed Science Congress
29th Asian-Pacific Weed Science Society Conference
17th China Weed Science Conference

October 19-24, 2025, Nanjing, China

—New Technology Leads The Way of Weed Science—

General Information

Date: 19-24 October 2025

Venue: International Youth Convention Hotel

Theme: New Technology Leads The Way of Weed Science

Organizers

International Weed Science Society
Asian-Pacific Weed Science Society
China Weed Science Society, CSPP

Main Topics

- Weed biology, ecology and diversity
- Weed omics, adaptation and evolution
- Weeds, ecosystem services and restoration
- Weed socio-economics, policy and extension
- Invasive and parasitic weeds
- Climate change and weed dynamics
- Herbicide resistance and management
- Herbicide physiology and biochemistry
- Chemical weed management
- Non-chemical weed management strategies
- Biological weed control
- Integrated weed management
- Soil-plant-microbiome interactions in weed management
- Biotechnological approaches to weed management
- Advanced technologies for weed detection and management
- Weed science in Asia Pacific
- Weed technology progress in China

Important Dates

- Call for abstracts: Open, January 2025
- Abstracts: Deadline to submit, May 15, 2025; Registration: Open, January 2025
